

Business and Noninstructional Operations

Criteria for Grant Application

The Board encourages an active and aggressive pursuit of grants and gifts.

In order to be recommended to the Board, grant applications must meet the following criteria:

- 1) A program established by a grant or gift must be coherent with the values and goals of the District.
- 2) Grant applications should be consistent with the current programs or be logical extensions thereof.
- 3) Permanent or ongoing staff positions shall not be established without consideration given for the long-term support of such.
- 4) Prior to the writing the grant should be reviewed with the Superintendent for concept approval.
- 5) Before final approval is given to the grant application, sufficient time must be allowed for review by the Management Team.
- 6) Approval will not be given to the grant application until the long range District financial and professional commitments of the grant are made clear.
