

Students

Saturday School

California Education Code Section 37223 permits a school district to conduct a Saturday School Program. The following guidelines will govern the operation of the Mendocino Unified School District Saturday School Program.

1. Advance parent notification and permission is required for students who attend this program. This permission could come in a written format or verbal permission may be obtained from the parent/guardian and recorded by a school official.
2. Students with discipline problems or those that are truant may be referred to this program. The District may refer students to the Saturday School Program in lieu of a school suspension to prevent students from missing instructional time.
3. The program must be supervised by a certificated employee.
4. This program may be scheduled for any Saturday during the regular school year.
