

**Community Relations**

**Youth Services**

The Governing Board realizes that the schools alone cannot meet children's complex individual needs. Parents/guardians, schools, local government, businesses, foundations and community-based organizations all must work together to assess needs, improve conditions for our community's youth, and ensure that the multiple services needed by children and families are coordinated so as to avoid gaps, duplication or delay.

The Board shall initiate or participate in collaborative relationships with other local government and county leaders to develop local policies and provide effective multi-agency programs that respond to the needs of children and families.

The Superintendent and staff shall contact and cooperate with agencies and organizations to ensure the availability and effective implementation of child care, after-school, nutrition, health and other services for children. District staff shall have opportunities to learn collaborative skills that will enhance their participation in these efforts.

The Board shall regularly evaluate the progress of collaborative efforts and shall monitor district budget, facilities and personnel priorities for opportunities to promote community collaboration and youth services.

The Board shall advocate for local, state and national policies, legislation and programs designed to provide or better coordinate services for children and families.

The district shall provide support services for children and families to the extent possible.
