

Dear Jason,

I would like to bring to your attention, a work proposal for myself.
Starting at 4:30am and ending at 8:30am during week days.

I believe this would not only benefit myself and my family, but also the school.

It is to my understanding that the schools on an extremely tight budget. By granting this work proposal it would save the the school quite a bit of money while still obtaining a professional and knowledgeable maintenance team.

I am very well experienced in maintenance. I am knowledgeable, quick and efficient at any tasks that need to be done.

I strongly believe I can maintain the school while working these hours.

As you know, I have a family. They are what fuel my work ambition. I am a family man and I want to provide for my family to the best of my possible ability. As a family man yourself, I hope that you will take my proposal into serious consideration.

Sincerely,
Kyle Rodrigues
