Promotion/Acceleration/Retention

The Governing Board expects students to progress through each grade within one school year. To accomplish this, instruction should accommodate the variety of ways that students learn and include strategies for addressing academic deficiencies when needed.

Students shall progress through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement.

When high academic achievement is evident, the Superintendent or designee may recommend a student for acceleration into a higher grade level. The student's maturity level shall be taken into consideration in making a determination to accelerate a student.

Students shall be identified on the basis of multiple measures of academic achievement, which may include developmental profiles, grades, attendance, teacher and parent observation, the state's Standardized Testing and Reporting Program, portfolios, and other assessment measures which are developmentally appropriate.

When a student in grades 2-9 is retained or recommended for retention the Superintendent or designee shall offer programs of direct, systematic, and intensive supplemental instruction in accordance with Education Code 37252.2 and Board policy.

Promotion/Acceleration/Retention

Acceleration from Kindergarten to First Grade A student enrolled in kindergarten may be admitted to the first grade at the discretion of the Superintendent or designee upon determination that the child is ready for first grade work and with consent of the parents/guardians.

Admission shall be subject to the following minimum criteria (5 CCR 200).

- 1) The student is at least five years of age.
- 2) The student has attended a public school kindergarten for a long enough time to enable school personnel to evaluate his/her ability.
- 3) The physical development and social maturity of the student are consistent with his/her advanced mental ability.
- 4) The parent/guardian of the student has filed a written statement with the school district approving the placement in first grade.

Acceleration at Other Grade Levels

A team consisting of the administrator, behaviorist (if available), psychologist, teachers, and parents meet to discuss the academic, social, and emotional needs of the student. When the team feels a student would benefit from accelerating a grade (K-8) or course (High School), the student would be asked to demonstrate mastery of the standards for the grade/course that would be skipped.

Continuation in Kindergarten:

Students who have completed one year of kindergarten shall be admitted to first grade unless the parent/guardian and the District agree that the student shall continue in kindergarten for not more than one additional school year. (EC 48011)

Whenever a student continues in kindergarten for an additional year, the Superintendent or designee shall secure an agreement, signed by the parent/guardian, stating that the student shall continue in kindergarten for not more than one additional school year. (EC 46300)

Retention at Other Grade Levels

The Superintendent or designee shall identify students who should be retained or who are at risk of being retained at the following grade levels:

1. Between grades 2 and 3
2. Between grades 3 and 4
3. Between grades 4 and 5
4. Between grades 5 and 6
5. Between grades 8 and 9

Students between grades 2 and 3 and grades 3 and 4 shall be identified primarily on the basis of their level of proficiency in reading. Proficiency in reading, English language arts, and mathematics shall be the basis for identifying students between grades 4 and 5, between intermediate and middle school grades, and between middle school grades and high school grades. (EC 48070.5)

Students shall be identified on the basis of either statewide assessment results or grades and other indicators of academic achievement, as established by Board policy.

If a student is identified as performing below the minimum standard for promotion, the student shall be retained in his/her current grade level unless the student's regular classroom teacher determines, in writing, that retention is not the appropriate intervention for the student's academic deficiencies. This determination shall specify the reasons that retention is not appropriate for the student and shall include recommendations for interventions other than retention that, in the opinion of the teacher, are necessary to assist the student in attaining acceptable levels of academic achievement. (EC 48070.5)

If the teacher's recommendation to promote is contingent on the student's participation in a summer school or interim session remediation program, the student's academic performance shall be reassessed at the end of the remediation program, and the decision to retain or promote the student shall be reevaluated at that time. The teacher's evaluation shall be provided to and discussed with the student's parents/guardians and the principal before any final determination of retention or promotion (EC 48070.5).

If the student does not have a single regular classroom teacher, the principal or designee shall specify the teacher(s) responsible for the decision to promote or retain the student.

When a student is identified as being at risk of retention, the Superintendent or designee shall so notify the student's parents/guardians as early in the school year as practicable. The student's parent/guardian shall be provided an opportunity to consult with the teacher(s) responsible for the decision to promote or retain the student (EC 48070.5).

The teacher's decision to promote or retain a student may be appealed consistent with Board policy, administrative regulation, and law. The burden shall be on the appealing party to show why the teacher's decision should be overruled.

To appeal a teacher's decision, the appealing party shall submit a written request to the Superintendent or designee specifying the reasons why the teacher's decision should be overruled. The appeal must be initiated within 10 school days of the determination of retention or promotion. The teacher shall be provided an opportunity to state orally and/or in writing the criteria on which his/her decision was based.

Within 30 days of receiving the request, the Superintendent or designee shall determine whether or not to overrule the teacher's decision. Prior to making this determination, the Superintendent or designee may meet with the appealing party and the teacher. If the Superintendent or designee determines that the appealing party has overwhelmingly proven that the teacher's decision should be overruled, he/she shall overrule the teacher's decision.

The Superintendent or designee's determination may be appealed by submitting a written appeal to the Board within 15 school days. Within 30 days of receipt of a written appeal, the Board shall meet in closed session to decide the appeal. The Board's decision may be made on the basis of documentation prepared as part of the appeal process or, at the discretion of the Board, the Board may also meet with the appealing party, the teacher, and the Superintendent/designee to decide the appeal. The decision of the Board shall be final.

If the decision of the Board is unfavorable to the appealing party, he/she shall have the right to submit a written statement of objections which shall become part of the student's record.

Students

A student who does not meet the age eligibility requirement may be admitted to first grade at the discretion of the Superintendent or designee and with the consent of the parent/guardian upon determination that the student is ready for first-grade work, subject to the following minimum criteria: (Education Code 48011; 5 CCR 200)

1. The student is at least five years of age.
2. The student has attended a public school kindergarten for a long enough time to enable school personnel to evaluate his/her ability.

4. The physical development and social maturity of the student are consistent with his/her advanced mental ability.
5. The parent/guardian of the student has filed a written statement with the district approving the placement in first grade.

Continuation in Kindergarten

Whenever the Superintendent or designee and the parents/guardians agree that a student shall continue in kindergarten for an additional year, the Superintendent or designee shall secure an agreement, signed by the parent/guardian, stating that the student shall continue in kindergarten for not more than one additional school year. (Education Code 46300, 48011)

The Superintendent or designee shall not approve a student's continuation in kindergarten until the student has been enrolled in kindergarten for close to one school year.

Retention at Other Grade Levels

If a student is identified as performing below the minimum standard for promotion to the next grade level based on the indicators specified in Board policy, the student shall be retained in his/her current grade level unless the student's regular classroom teacher determines, in writing, that retention is not the appropriate intervention for the student's academic deficiencies. This determination shall specify the reasons that retention is not appropriate for the student and shall include recommendations for interventions other than retention that, in the opinion of the teacher, are necessary to assist the student in attaining acceptable levels of academic achievement. (Education Code 48070.5)

If the teacher's recommendation to promote is contingent on the student's participation in a summer school or

interim session remediation program, the student's academic performance shall be reassessed at the end of the remediation program, and the decision to retain or promote the student shall be reevaluated at that time. When a student is identified as being at risk of retention, the Superintendent or designee shall so notify the student's parent/guardian as early in the school year as practicable. The student's parent/guardian shall be provided an opportunity to consult with the teacher(s) responsible for the decision to promote or retain the student. (Education Code 48070.5)

The Superintendent or designee shall also provide a copy of the district's promotion/retention policy and administrative regulation to those parents/guardians who have been notified that their child is at risk of retention.

Appeal Process

Whenever a student's parent/guardian appeals the teacher's decision to promote or retain a student, the burden shall be on the parent/guardian to show why the teacher's decision should be overruled. (Education Code 48070.5)

To appeal a teacher's decision, the parent/guardian shall submit a written request to the Superintendent or designee specifying the reasons that the teacher's decision should be overruled. The appeal must be initiated within 10 school days of the determination of retention or promotion.

The teacher shall be provided an opportunity to state orally and/or in writing the criteria on which his/her decision was based.

Within 30 days of receiving the request, the Superintendent or designee shall determine whether or not to overrule the teacher's decision. Prior to making this determination, the Superintendent or designee may meet with the parent/guardian and the teacher. If the Superintendent or designee determines that the parent/guardian has overwhelmingly proven that the teacher's decision should be overruled, he/she shall overrule the teacher's decision.

The Superintendent or designee's determination may be appealed by submitting a written appeal to the Governing Board within 15 school days. Within 30 days of receipt of a written appeal, the Board shall meet in closed session to decide the appeal. The Board's decision may be made on the basis of documentation prepared as part of the appeal process or, at the discretion of the Board, the Board may also meet with the parent/guardian, the teacher, and the Superintendent or designee to decide the appeal. The decision of the Board shall be final.

If the final decision is unfavorable to the parent/guardian, he/she shall have the right to submit a written statement of objections which shall become part of the student's record.

2021-22 Supplemental Retention Policy

The Governing Board requires that, for the 2021-22 academic year, Mendocino Unified School District shall implement a supplemental policy regarding the retention of pupils who, in the 2020-21 academic year, received deficient grades, as specified, for at least half of the pupil's coursework, except for pupils enrolled in grade 12 during the 2020-21 academic year.

The District shall within 30 calendar days of receiving a written retention consultation request from a parent, conduct the consultation with the parent, the pupil, the administrator, and a teacher. The consultation shall include a discussion of all available learning recovery options, research on the effects of retention and the benefits of particular interventions and supports, and consideration of the pupil's academic data and any other information relevant to whether retention is in the pupil's best interests, academically and socially.

A retention decision must be consistent with a pupil's individualized education program. Eligible students shall, regardless of the retention decision, be offered specific interventions and supports. If the decision is to not retain the pupil, the pupil shall be offered access to prior semester courses in which the pupil received a D or F letter grade in the 2020-21 academic year, some other form of credit recovery, or other supports as specified.

The District will notify the requesting parent of its retentions decision within 10 calendar days of the consultation.

Education Code Sections:

48071: Retention of pupils at 2020-21 grade level for the 2021-22 academic year; parent consultation; notification of final determination; interventions and supports

49066.5: Application to change letter grade from 2020-21 school year course to Pass or No Pass grade; acceptance of transcript by postsecondary educational institutions; notice of grade change option

51225: Third- or fourth-year high school pupils who are not on track to graduate; exemption from additional coursework and other requirements; additional opportunities to complete required coursework.

Instruction

Independent Study

Definitions

Full-Time Independent Study – Students are enrolled in the Mendocino Alternative School (Independent Study). Students are required to take a minimum of 4 classes in the IS program.

Part-Time Independent Study – Students are enrolled in one of the regular education high schools. Students may take courses on an independent study basis, but must take a minimum of 4 courses in the regular education setting. Part-time IS is not available at the K-8 levels.

Long-Term Independent Study – Students out of school for 16 days or more. School sites will determine the long-term independent study process.

Short-Term Independent Study – Students out of school for 5-15 days. School sites will determine the short-term independent study process.

The Governing Board authorizes independent study as an optional alternative instructional strategy for eligible students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan to serve students who desire a more challenging educational experience, whose health or other personal circumstances make classroom attendance difficult, who are unable to access course(s) due to scheduling problems, and/or who need to make up credits or fill gaps in their learning. As necessary to meet student needs, independent study may be offered on a full-time basis or on a part-time basis in conjunction with part- or full-time classroom study.

For students out for 5-15 days, short-term independent study will be utilized. The Mendocino K-8 School, Albion School, and Comptche School will adopt and determine a short term IS procedure. In addition, the Mendocino High, Community, and Sunrise Schools will adopt a short term IS procedure. In all cases, student and parents are required to notify school personnel of their intention of using short-term IS at least 5 school days prior to the absence. For students out 16 days or more, students may be required to transfer to IS for the remainder of the semester.

The Superintendent or designee may provide a variety of independent study opportunities, including, but not limited to, through a program or class within a comprehensive school, an alternative school or program of choice, a charter school, a home-based format, and an online course.

A student's participation in independent study shall be voluntary. Students participating in independent study shall have the right, at any time, to enter or return to the regular classroom mode of instruction. (Education Code 51747; 5 CCR 11700)

Parents/guardians of students who are interested in independent study shall contact the Superintendent or designee. The Superintendent or designee shall approve independent study for an individual student only upon determining that the student is prepared to meet the district's requirements for independent study and is likely to succeed in independent study as well as or better than he/she would in the regular classroom setting.

The minimum period of time for any independent study option shall be five consecutive school days.

The Board recognizes that independent study may be used as an option to encourage students to remain in school. Teachers should carefully set the duration of independent study assignments, within the limits specified by the Board, in order to help identify students falling behind in their work or in danger of failing or dropping out of school.

Written Agreements

The Superintendent or designee shall ensure that a written master agreement and, as appropriate, a learning agreement for students participating in course-based independent study exist for each participating student as prescribed by law. (Education Code 51747, 51749.5)

The master agreement shall specify the length of time in which each independent study assignment must be completed. Because excessive leniency in the duration of independent study assignments may result in a student falling behind his/her peers and increase the risk of dropping out of school, independent study assignments shall be no more than one week for all grade levels and types of program. However, when necessary based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due, up to the termination date of the agreement.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student misses three assignments, unless the student's written agreement specifies a lower or higher number of missed assignments based on the nature of the assignments, the total number of assignments, and/or other unique circumstances.

Student-Teacher Conferences

Supervising teachers should establish an appropriate schedule for student-teacher conferences in order to help identify students falling behind in their work or in danger of failing or dropping out of school. Teachers are expected to monitor student progress and work closely with each student to determine the amount and type of contact needed for the student to be successful in the program.

Missing appointments with the supervising teacher without valid reasons may trigger an evaluation to determine whether the student should remain in independent study.

To foster each participating student's success in independent study, the Board establishes the following maximum lengths of time which may elapse between the time an assignment is made and the date by which the student must complete the assigned work as follows:

All grade levels – 9 weeks, unless more frequent meetings are requested by the teacher or student. Nine-week assignments allow for projects, student self-pacing where appropriate for one quarter's work, or to allow students to be on independent study while traveling.

When any participating student fails to complete three consecutive independent study assignments the teacher shall conduct an evaluation to determine whether it is in the student's best interest to remain in independent study.

Home-Based Independent Study

The Superintendent or designee shall encourage parents/guardians desiring to teach their children at home to have their children participate in independent study. Such participation allows continued contact and cooperation between the school system and the home-based student and ensures that the student will be offered a standards-based education substantially equivalent in quality and quantity to the district's classroom instruction.

Program Evaluation

The Superintendent or designee shall annually report to the Board the number of district students participating in independent study, the average daily attendance generated for apportionment purposes, student performance as measured by standard indicators and in comparison to students in classroom-based instruction, and the number and proportion of independent study students who graduate or successfully complete independent study. Based on the program evaluation, the Board and Superintendent shall determine areas for program improvement as needed.

The Governing Board authorizes independent study as an optional alternative instructional strategy for students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan to serve students who desire a more challenging educational experience, whose health or other personal circumstances make classroom attendance difficult, who are unable to access course(s) due to scheduling problems, and/or who need to make up credits or fill gaps in their learning. The Superintendent or designee may provide a variety of independent study opportunities, including, but not limited to, through a program or class within a comprehensive school, an alternative school or program of choice, a charter school, and an online course.

A student's participation in independent study shall be voluntary. (Education Code 51747, 51749.5)

Independent study for each student shall be under the general supervision of a district employee who possesses a valid certification document pursuant to Education Code 44865 or an emergency credential pursuant to Education Code 44300. Students' independent study shall be coordinated, evaluated, and documented, as prescribed by law and reflected in the accompanying administrative regulation. (Education Code 51747.5)

The minimum period of time for any independent study option shall be three consecutive school days.

General Independent Study Requirements

For the 2021-22 school year, the district shall offer independent study, as specified in Education Code 51745, to meet the educational needs of students unless the district has obtained a waiver. (Education Code 51745)

For the 2022-23 school year and thereafter, the Superintendent or designee may continue to offer and approve independent study for an individual student upon determining that the student is prepared to meet the district's requirements for independent study and is likely to succeed in independent study as well as or better than the student would in the regular classroom setting.

Because excessive leniency in the duration of independent study assignments may result in a student falling behind peers and increase the risk of dropping out of school, independent study assignments shall be completed no more than one week after assigned for all grade levels and types of program. However, when necessary based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due, up to the termination date of the agreement.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student fails to make satisfactory educational progress and/or misses three assignments. Satisfactory educational progress shall be determined based on all of the following indicators: (Education Code 51747)

1. The student's achievement and engagement in the independent study program, as indicated by the student's performance on applicable student-level measures of student achievement and engagement specified in Education Code 52060

2. The completion of assignments, assessments, or other indicators that evidence that the student is working on assignments
3. Learning required concepts, as determined by the supervising teacher
4. Progress towards successful completion of the course of study or individual course, as determined by the supervising teacher

4. An increase in the amount of time the student works under direct supervision

When the student has missed the number of assignments specified in the written agreement as requiring an evaluation, the Superintendent or designee shall conduct an evaluation to determine whether or not independent study is appropriate for the student. This evaluation may result in termination of the independent study agreement and the student's return to the regular classroom program or other alternative program.

A written record of the findings of any such evaluation shall be treated as a mandatory interim student record which shall be maintained for three years from the date of the evaluation. (Education Code 51747)
