6. REPORTS

6.1. Student Trustee – Knute Kvinsland

Student Trustee Kvinsland reported that this month he sent out two surveys. One to the ASB Club and one to the whole school. The whole school was able to comment on what they felt was important in the Phase III construction process. ASB survey responses were centered on the fact that students are often served spoiled milk. Many have stopped drinking the milk because it is expired. The poor quality of the women's toiletries are still a topic of discussion. Other questions were in regards to AE Week trips and the student's enjoyment of the week. Physics and AP classes are some of the classes students are most nervous about for next year. Tennis has been going well this year. Tournament coming up next Friday near Santa Rosa. School needs a baseball team. 66.7% of students are excited about prom. 71.4% of students have had spoiled milk.

The LCAP draft is in the works. A survey was sent out to parents/students/staff. The LCAP will be presented on June 6, 2024. Water Project meetings have been ongoing. The meetings have been productive. We're hoping to have an operating agreement developed for the community when water levels are low. We have been working the City of Fort Bragg regarding a Broadband Project. Thank the Mendocino High School teachers regarding the success of AE Week and the dedication that the teachers give the program. Attended an IEP meeting at the high school recently and our Special Ed department is doing a great job. Yo-Yo

Spelling Bee: Luciano de Pierro Cataldo, 6th grade

Hello, and thank for reading this letter into the record,

I'm sorry I cannot attend this meeting in person, but wanted to be sure my voice was heard in support of Anna Yanez, and the entire counseling department.

I am a parent of a student at the K-8. We moved here 6 years ago, and have been very pleased with the education and opportunities provided to all students. Sadly, like all kids, my child had to go through Covid from home. I know the year kids returned was spent trying to get kids' social emotional needs met, as well as academics accomplished. The Covid experience left my child with anxiety and trust issues, as well as struggling to maintain friendships. I know my child was one among many left with the residual effects. The teachers, combined with the mental health support team, have done an unknown amount of work to make sure our kids feel safe and able to learn. My hat goes off to everyone in that unenviable position.

Sadly, in November my child's other parent passed away suddenly. I reached out to the school to notify the teachers and staff, and was thankfully put in touch with Anna Yanez. Anna provided one on one support to my child and a bond was formed. Anna went out of her way to offer me resources and support for the challenging months ahead. I am not able to provide outside counseling for my child due to financial limitations, so knowing that my child was walking through the grief process with someone trained made the pain of it all a bit easier to digest. I cannot speak highly enough of the difference it makes in my child's outlook and demeanor to be able to meet with Anna. My child trusts Anna. My child has struggled with abandonment due to her other parent's issues, and Anna has been a stable source of connection throughout this trauma.

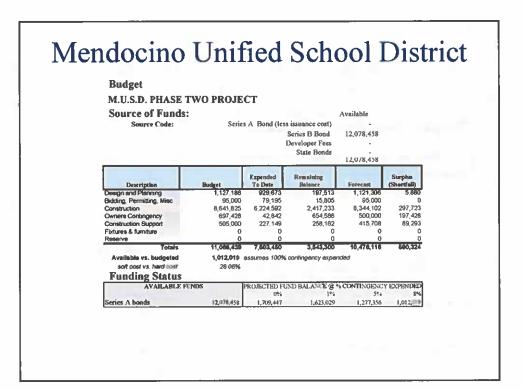

I say all of this because I know that you have a tough job to do with the severe budgetary cuts MUSD is facing. I know that every department is an integral part of the system, and cutting any of it is painful. I do, however, want to implore you to reconsider cutting Anna's position. I am certain I represent only one family she has served that has benefitted from her presence. At a time when our kids are experiencing so much in the world, I feel strongly that no position should be on the chopping block from the counseling department. Kids today face incredible challenges we never had to deal with as children. Knowing that a trained, youth, mental health professional is available and can give 1-1 time is invaluable. I believe the idea is that someone else, who already has a full case load is supposed to absorb Anna's work, but I ask, how without diminishing care? Relationships and trust have already been formed. Counselors are already working at full capacity. How, with less time available for each kid in need, will the level of support be equal to what it is now? We all know the answer. It cannot possibly be. I think that is doing our kids a disservice and making other counselors' jobs more difficult.

I admit, I don't know the ins and outs of the budget conversation. I am sure your desire is to do the best by the kids and staff of MUSD. I know there are no easy answers, but I again ask you to reconsider the decision to make cuts in the counseling department, specifically eliminating Anna Yanez's position.

Thank you for your time,

A concerned parent

Student Wellness

The Governing Board recognizes the link between student health and learning and desires to provide a comprehensive program promoting healthy eating and physical activity for district students. The Superintendent or designee shall coordinate and align district efforts to support student wellness through health education, physical education and activity, health services, nutrition services, psychological and counseling services, and a safe and healthy school environment. In addition, the Superintendent or designee shall develop strategies for promoting staff wellness and for involving parents/guardians and the community in reinforcing students' understanding and appreciation of the importance of a healthy lifestyle.

School Wellness Council

The Superintendent or designee shall encourage parents/guardians, students, food service employees, physical education teachers, school health professionals, Board members, school administrators, and members of the public to participate in the development, implementation, and periodic review and update of the district's student wellness policy. (42 USC 1758b; 7 CFR 210.30)

To fulfill this requirement, the Superintendent or designee may appoint a school wellness council or other district committee and a wellness council coordinator. The council may include representatives of the groups listed above, as well as health educators, curriculum directors, counselors, before- and after-school program staff, health practitioners, and/or others interested in school health issues.

The Superintendent or designee may make available to the public and school community a list of the names, position titles, and contact information of the wellness council members.

The wellness council shall advise the district on health-related issues, activities, policies, and programs. At the discretion of the Superintendent or designee, the duties of the council may also include the planning, implementation, and evaluation of activities to promote health within the school or community.

Goals for Nutrition, Physical Activity, and Other Wellness Activities

The Board shall adopt specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. In developing such goals, the Board shall review and consider evidence-based strategies and techniques. (42 USC 1758b; 7 CFR 210.30)

The district's nutrition education and physical education programs shall be based on research, shall be consistent with the expectations established in the state's curriculum frameworks and content standards, and shall be designed to build the skills and knowledge that all students need to maintain a healthy lifestyle.

The nutrition education program shall include, but is not limited to, information about the benefits of healthy eating for learning, disease prevention, and health promoting habits. Nutrition education shall be provided as part of the health education program and, as appropriate, shall be

integrated into other academic subjects in the regular educational program, before- and afterschool programs, summer learning programs, and school garden programs.

All students shall be provided opportunities to be physically active on a regular basis. Opportunities for moderate to vigorous physical activity shall be provided through physical education and recess and may also be provided through school athletic programs, extracurricular programs, before- and after-school programs, summer learning programs, programs encouraging students to walk or bicycle to and from school, in-class physical activity breaks, and other structured and unstructured activities.

The Board may enter into a joint use agreement or memorandum of understanding to make district facilities or grounds available for recreational or sports activities outside the school day and/or to use community facilities to expand students' access to opportunity for physical activity.

Professional development may be regularly offered to the nutrition program director, managers, and staff, as well as health education teachers, physical education teachers, coaches, activity supervisors, and other staff as appropriate to enhance their knowledge and skills related to student health and wellness.

In order to ensure that students have access to comprehensive health services, the district may provide access to health services at or near district schools and/or may provide referrals to community resources.

The Board recognizes that a safe, positive school environment is also conducive to students' physical and mental health and thus prohibits bullying and harassment of all students, including bullying on the basis of physical differences, weight, or health condition.

Inclusive Physical Activity and Physical Education for All Students

Exclusion, stigma, and bullying based on size, weight, physical ability, gender, and/or sexual orientation can deter students from participating in physical education and physical activity opportunities. Consistent with state law and the school's anti-bullying policy, the District shall ensure that students participating in physical activities at school are not bullied. The District shall ensure that physical education and physical activities are inclusive and safe for all students. Physical education, and, to the extent possible, physical activity opportunities, shall emphasize games and activities that foster inclusive participation and skill development rather than competition and aggressive play. Instructors and facilitators shall use educationally sound standards for dividing students into groups and shall not allow students to pick teams publicly. Students shall not be permitted to engage in name-calling and taunting during activities and in locker and changing rooms. Teachers and other adult supervisors are responsible for informing and reminding students that these principles are in effect and will be enforced at all activity times, including, before, during, and after school. Students will be allowed to participate in physical education and intramural and interscholastic sports in a manner consistent with their

gender identity.

Promotion and Support of Healthy Eating and Weight Management for All Students

Stigma and bullying based on weight and size can impede students' efforts to eat healthy and maintain a healthy weight. Consistent with state law and the school's anti-bullying policy, the District shall ensure that students participating in nutrition education and healthy eating activities at school are not bullied. The District shall create an environment that supports a healthy body image, shape, and size among all students and staff members, and encourages healthy eating practices. Nutrition promotion and education materials will emphasize the adoption of healthy behaviors rather than the pursuit of weight goals.

The Superintendent or designee shall encourage staff to serve as positive role models for healthy eating and physical fitness. He/she shall promote work-site wellness programs and may provide opportunities for regular physical activity among employees.

Nutrition Guidelines for All Foods Available at School

For all foods and beverages available on each campus during the school day, the district shall adopt nutrition guidelines which are consistent with 42 USC 1758, 1766, 1773, and 1779 and federal regulations and which support the objectives of promoting student health and wellness. (42 USC 1758b)

In order to maximize the district's ability to provide nutritious meals and snacks, all district schools shall participate in available federal school nutrition programs, including the National School Lunch and School Breakfast Programs and after-school snack programs, to the extent possible. When approved by the California Department of Education, the district may sponsor a summer meal program.

The Superintendent or designee shall provide access to free, potable water in the food service area during meal times in accordance with Education Code 38086 and 42 USC 1758, and shall encourage students' consumption of water by educating them about the health benefits of water and by serving water in an appealing manner.

The Board believes that all foods and beverages sold to students at district schools, including those available outside the district's reimbursable food services program, should support the health curriculum and promote optimal health. Nutrition standards adopted by the district for foods and beverages provided through student stores, vending machines, or other venues shall meet or exceed state and federal nutrition standards.

The Superintendent or designee shall encourage school organizations to use healthy food items or non-food items for fundraising purposes.

He/she also shall encourage school staff to avoid the use of non-nutritious foods as a reward for students' academic performance, accomplishments, or classroom behavior.

School staff shall encourage parents/guardians or other volunteers to support the district's nutrition education program by considering nutritional quality when selecting any snacks which they may donate for occasional class parties. Examples of healthy snacks include carrots and hummus, fruit kabobs, popcorn, fresh fruit, etc. Class parties or celebrations shall be held after the lunch period when possible.

To reinforce the district's nutrition education program, the Board prohibits the marketing and advertising of foods and beverages that do not meet nutrition standards for the sale of foods and beverages on campus during the school day. (7 CFR 210.30)

Program Implementation and Evaluation

The Superintendent designates the individual(s) identified below as the individual(s) responsible for ensuring that each school site complies with the district's wellness policy. (42 USC 1758b; 7 CFR 210.30)

(42 USC 1758b)

The Superintendent or designee shall invite feedback on district and school wellness activities from food service personnel, school administrators, the wellness council, parents/guardians, students, teachers, before- and after-school program staff, and/or other appropriate persons.

The Board and the Superintendent or designee shall establish indicators that will be used to measure the implementation and effectiveness of the district activities related to student wellness. Such indicators may include, but are not limited to:

4. Extent to which foods and beverages sold on campus outside the food services program, such as through vending machines, student stores, or fundraisers, comply with nutrition standards

9. A description of other districtwide or school-based wellness activities offered, including the number of sites and/or students participating, as appropriate

As feasible, the assessment report may include a comparison of results across multiple years, a comparison of district data with county, statewide, or national data, and/or a comparison of wellness data with other student outcomes such as academic indicators or student discipline rates.

In addition, the Superintendent or designee shall prepare and maintain the proper documentation and records needed for the administrative review of the district's wellness policy conducted by the California Department of Education (CDE) every three years.

The assessment results of both the district and state evaluations shall be submitted to the Board for the purposes of evaluating policy and practice, recognizing accomplishments, and making policy adjustments as needed to focus district resources and efforts on actions that are most likely to make a positive impact on student health and achievement.

Notifications

The Superintendent or designee shall inform the public about the content and implementation of the district's wellness policy and shall make the policy, and any updates to the policy, available the public on an annual basis. He/she shall also inform the public of the district's progress towards meeting the goals of the wellness policy, including the availability of the triennial district assessment. (Education Code 49432; 42 USC 1758b; 7 CFR 210.30)

Petition to Challenge Course

Definitions

One month prior to the end of the current semester, currently enrolled students interested in challenging a course shall file a petition form with their counselor. Entering ninth-grade students and new enrollees shall file a petition and take the examination within two weeks of the time of initial entry to high school classes.

The counselor shall inform the course instructor of the student's intent to challenge the course. The student shall be allowed to challenge the course by examination if their petition is signed by the counselor, department chair and parent/guardian. The student's petition shall include, but not be limited to, the following:

- 1. Grades in courses of the subject area of the challenge
- 2. Recommendations from the teacher
- 3. Progression of courses to be taken by the student
- 4. Student's rationale or reasons for challenging a specific course

The challenge examination may be offered when the course is part of a sequence of courses normally taken in specific order or when the course is normally required for entry into another course.

- 1. During their enrollment in high school, students may challenge no more than four courses which meet graduation requirements. While successful challenge will exempt a student from those specific courses required for graduation, the student is still responsible for the total units required for graduation.
- 2. A student may challenge a particular course only once.
- 3. A student may challenge only one course per semester. This may be a course in which the student is enrolled or any other approved course offering.

Test Content and Administration

The principal and department chairpersons shall collaborate with teachers in the development of appropriate district-wide testing procedures and materials for the classes that may be challenged within each department. Departmentally-developed performance objectives shall determine the content and the type of evaluation to be used. The examination may be written, oral, by demonstration or any combination thereof.

The type of test administered shall depend on the course outline. The department chairperson or designee shall supervise the administration and evaluation of tests pertaining to the department.

The student must earn an A or B to successfully challenge a course by examination. No course grade or units will be assigned on the student's transcript.

<u>Community Relations</u> Use of School Facilities

The Governing Board believes that school facilities and grounds are a vital community resource which should be used to foster community involvement and development. Therefore, the Board authorizes the use of school facilities by district residents and community groups for purposes specified in the Civic Center Act, to the extent that such use does not interfere with school activities or other school-related uses.

The Superintendent or designee shall give priority to school-related activities in the use of school facilities and grounds. Other uses authorized under the Civic Center Act shall be on a first-come, first-served basis.

For the effective management and control of school facilities and grounds, the Superintendent or designee shall maintain procedures and regulations that: (Education Code 38133)

2. Preserve order in school facilities and on school grounds and protect school facilities, including the designation of a person to supervise this task, if necessary

3. Ensure that the use of school facilities or grounds is not inconsistent with their use for school purposes and does not interfere with the regular conduct of schoolwork

Subject to prior approval by the Board, the Superintendent or designee may grant the use of school facilities or grounds on those days on which district schools are closed. (Education Code 37220)

There shall be no advertising on school facilities and grounds except as specified in Board Policy 1325 - Advertising and Promotion.

As necessary to ensure efficient use of school facilities, the Superintendent or designee may, with the Board's approval, enter into an agreement for the joint use of any school facilities or grounds. The Board shall approve any such agreement only if it determines that it is in the best interest of the district and the community.

Fees

The Board shall adopt a comprehensive schedule of fees to be charged for community use of school facilities and grounds, including, but not limited to, the multipurpose room(s), playing or athletic field(s), track and field venue(s), tennis court(s), and outdoor basketball court(s). The schedule of fees shall be prepared in accordance with 5 CCR 14037-14041. (5 CCR 14041)

OPTION 1: (Amount not to exceed direct costs to all community groups)

The Board believes that the use of school facilities or grounds should not result in an expense to the district. The Superintendent or designee shall charge all groups granted the use of school facilities or grounds under the Civic Center Act an amount not to exceed direct costs determined in accordance with 5 CCR 14037-14041. (Education Code 38134) OPTION 1 ENDS HERE

OPTION 2: (No charge to nonprofit organizations and youth and school-oriented groups)

The Board authorizes the use of school facilities or grounds, without charge, by nonprofit organizations and by clubs or associations organized to promote youth and school activities, including, but not limited to, Girl Scouts, Boy Scouts, Camp Fire USA, YMCA, parent-teacher associations, school-community advisory councils, and recreational youth sports leagues that charge participants no more than an average of S60 per month. Other groups that request the use of school facilities under the Civic Center Act shall be charged an amount not to exceed direct costs determined in accordance with 5 CCR 14037-14041. (Education Code 38134) OPTION 2 ENDS HERE

OPTION 3: (No charge to school-related organizations)

The Board authorizes the use of school facilities or grounds without charge to school-related organizations whose activities are directly related to or for the benefit of district schools. All other groups requesting the use of school facilities under the Civic Center Act shall be charged an amount not to exceed direct costs determined in accordance with 5 CCR 14037-14041.

OPTION 3 ENDS HERE

Additionally, when any use of school facilities or grounds is for religious services, the district shall charge an amount at least equal to the district's direct costs. (Education Code 38134)

Groups shall be charged fair rental value when using school facilities or grounds for entertainment or meetings where admission is charged or contributions solicited and net receipts are not to be expended for charitable purposes or for the welfare of the district's students. (Education Code 38134)

Calculating Direct Costs

Direct costs to be charged for community use of each, or each type of, school facility or grounds shall be calculated in accordance with 5 CCR 14038 and may reflect the community's proportionate share of the following costs: (Education Code 38134: 5 CCR 14038-14041)

1. Capital direct costs calculated in accordance with 5 CCR 14039, including the estimated costs of maintenance, repair, restoration, and refurbishment of non-classroom space school facilities or grounds

2. Operational direct costs calculated in accordance with 5 CCR 14040, including estimated costs of supplies, utilities, janitorial services, other services performed by district employees and/or contracted workers, and salaries and benefits paid to district employees directly associated with the administration of the Civic Center Act to operate and maintain school facilities and grounds

Direct cost fees shall not be discounted to any group or organization except when the discount is specifically authorized in the adopted fee schedule. (5 CCR 14041)

Expending Funds Collected as Capital Direct Costs

Any funds collected as capital direct costs shall be deposited into a special fund to be used only for capital maintenance, repair, restoration, and refurbishment of school facilities and grounds. (5 CCR 14042)

Use of School Facility as Polling Place

The Board may authorize the use of school buildings as polling places, or vote centers for election day. The Board may also authorize the use of school buildings, without cost, for the storage of voting machines and other vote-tabulating devices. However, if a city or county elections official specifically requests the use of a school building

as a polling place, or vote center on election day and/or during the 10 days preceding election day, as well as during key dates necessary for drop-off, set-up, and pick-up of election materials, as determined by the elections official, the Board shall allow its use for such purpose. If school will be in session, the Superintendent or designee shall identify to elections officials the specific areas of the school buildings not occupied by school activities that will be allowed for use as a polling place or vote center. (Elections Code 12283)

When a school is used as a polling place or vote center, the Superintendent or designee shall provide the elections official a site with an adequate amount of space that will allow the precinct board to perform its duties in a manner that will not impede, interfere, or interrupt the normal process of voting and shall make a telephone line for Internet access available for use by local elections officials if so requested. The Superintendent or designee shall make a reasonable effort to ensure that the site is accessible to persons with disabilities. (Elections Code 12283)

The Superintendent or designee shall establish procedures to ensure student safety and minimize disruptions whenever school is in session while the facilities are being used as a polling place or vote center.
